Election/Restrictions

Claim 1 is allowable. The restriction requirement between species, as set forth in the Office action mailed on 10/15/08, has been reconsidered in view of the allowability of claims to the elected invention pursuant to MPEP § 821.04(a). **The restriction requirement is hereby withdrawn as to any claim that requires all the limitations of an allowable claim.** Claims 5-6, directed to different reaction transforming schemes, are no longer withdrawn from consideration because the claim(s) requires all the limitations of an allowable claim.

In view of the above noted withdrawal of the restriction requirement, applicant is advised that if any claim presented in a continuation or divisional application is anticipated by, or includes all the limitations of, a claim that is allowable in the present application, such claim may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application.

Once a restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 443 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

Reason for Allowance

The following is an examiner's statement of reasons for allowance: While the conversion of elemental sulfur into sulfane is known in the art (e.g., Gmelin Handbook of Organic Chemistry, Supp. Vol. 4A/B, ed. 8, pages 391-394, 1983. XP-002268680, Estep et al. (US 3920424)); the closest prior art for injecting sulfane into geological

formation is the patent to Paul (US4773483), Paul injects liquid sulfane into subterranean formations (abstract) and precipitates elemental sulfur. It would have not been obvious to one of ordinary skill in the art to incorporate the teaching of Paul to reverse the reaction after elemental sulfur is converted into sulfane. Thus, claims 1-17 are allowable over the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to REBECCA LEE whose telephone number is (571)270-5856. The examiner can normally be reached on Monday-Friday 8:00 am - 5:00 pm EST.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, ROY KING can be reached on (571)272-1244. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
